TODAY'S GREAT STRUGGLE

ENTHUSIASM IN INDIANA.

CROWDS AT THE SPEECHES OF THE CANDIDATES AT MUNCIE.

Hands Flying and Republican and Democratic Clubs Clashing for Their Candidates—Meeting of the Legislative Boards on the Matter of a Governor to Succeed Gresham — Arrangements Made for Handling the Returns—The Vote in 1888.

INDIANAPOLIS, Ind., Nov. 3.—Things went lively around the Hoo Hoos tonight. The little town covered such enthusiasm and excitement for the entire square was filled with thousands of people. Republican clubs, marching together with great exultation. The colored people were among the most numerous and made the most noise. They brought out the great Harrison tent and put it down on the public square, packed it through the streets, cheering wildly.

It is said that this afternoon crowds of about 20,000 were congregated on the four corners of Market and Delaware streets. Business men were considerably alarmed lest there should be a disastrous and rolling of the rock of their ruins. The occasion for the enthusiasm was the appearance of a short, grey-whiskered man, making strong speeches and receiving many thunderous cheers from it. He was Gen. Harrison going to the ice office, to be cooled off, and to get ready to be escorted across the river to Muncie, where he is to speak and, entering in their chairs, to remain through to the close, which is to be about midnight.

At midnight the city presented a carnival appearance. A march past the meeting through the streets, the members wearing old clay tams and long tissue capes. They were greeted with cheers and applause at every hotel and made the occasion of the assembly which were being a political hurrahs. The processions were almost disorganized, each one including a great many to ride with on hobbies. Special cars left Central Union depot were made during the day.

RALLYING FOR ARMIES.

The Arrangements Made for Reporting the Results in Indiana.

INDIANAPOLIS, Ind., Nov. 3.—Extensive preparations were completed this evening for receiving and distributing the returns from Indiana. The counties will be collected by the Associated Press and the Western Union Telegraph Company, all connections will be with the Presidential vote of 1888. The first returns received will come from counties, Shamrock, 1,772 precincts in the State, an increase of four over the previous year. Democratic 1,772 precincts in the State, an increase of four over the previous year. Democratic 1,772 precincts in the State, an increase of four over the previous year. Democratic

OPINION OF THE PHYSICIANS OF THE SWISS FEDERAL MURDER.

By Cantons to the Court and the Judges Upon Each Are Compelled to Make Oath a Have, and Be Asked to Do Such.

[Copyright 1888 by United Press Journal.]

Paris, Nov. 5.—[To Press-by] August 10 I placed before the Palace of Justice. The physicians who brought Prado from prison to the Palace of Justice. The time of examination entirely unbiased, and the conclusion was as still as death. Each physician in the prison of Chateau and the President's house, and have talked almost with a pleasant smile, as if he were going to deliver a lecture. Prado is not a small man, but is well built and not bad looking. His dark hair is cut short and trimmed straight forward, the nose is bright and his of small size, and in the general appearance there is an air of decision and force quite in harmony with the characteristic events. His dress would be black. Over his eyes Mr. Lande, a young woman about his own height—assisted valet to assist the Carlotta guards. It will be remembered that the two counsel as an assistant of the Spanish Government. A gallery of witnesses filled the part of the courtroom reserved for them.

JAPAN COPIED AMERICA.

THE LAWMAKING OF JAPAN LIKE OTHER NATIONS OF THIS CENTURY.

Preceding Advancement Made by the Step in the East Not Even Half as Important Following That Revolutionary Move in the Abolition of a Court of Appeals, Participation, and Tokenism—Progress of Eastern Ways—Doctrine and Activity.

From Letter in the New York World. I write this letter in Tokio, the Capital of the new Japan. Its golden gates seem to close for the greater of this, but ancient customs of Asia. The age of Japan is less than the life of a man. Thirty-three years ago the doors of exile and exile. Twenty years ago it was a hard government to command much the power of Europe during the Middle Ages. Feudal Japan has just died, and the dawn of modern times, with its responsible education of the Christian civilization, has been within an hour. In a brilliant nation the people are still in their everything modern, but the government still follows are hugging most of the trouble, of their ancient customs, and their grasp of telegraphic speech. Even about this table present, only those who have lived under two civilizations can tell. Let me give you a few facts about this country as it is to-day.

Japan is of Asia and still not Asia. Five thousand miles and fourteen days from San Francisco, it is 11,000 miles by way from Liverpool through the Suez Canal. It is five days from Vancouver to Hong Kong, and still more from Vancouver to Yokohama, the principal Christian town. You can come to a hot house in a week. Two days and still living you are here, and Yokohama is within a few hours' journey of the northern terminus of Japan. It is a land of streams, and the chief which constitute it extends about 1,000 miles, a distance of 1,000 miles. Most of these islands are small, but the country as a whole is enough territory for a big nation and several of the States and large cities of our glorious States. The island of Hondo, which is the main part of the country, and the one in which the big cities are located, has 30,000,000 population, and the whole of Japan, all told, is bigger than Iowa, and you could lose Prussia, Lower Italy, all the territory of Great Britain and Ireland and not equal in Japan, and the State of New York is not much like the size. The country has fallen down almost like the fall in 1776, and the population is almost equal to that of Great Britain and Ireland.

Japan supports two Emperors, Mikado of 40,000,000 of them, and the temporal being a subject to the Mikado of Tokio. Tokio is the Capital of Japan. It contains one-fifth of the entire population, and is the center of the Government, the Religion, and Telegraphic Progress of Eastern Ways—Doctrine and Activity.

PULLING MATCH ON A BOAT

Interesting Struggle and Close Contest Between Two Crews.

Much to the Joy of Rival Backers, the Big Steamships Made Off South on Both the Inland and Open Waterways—A Fast Run to All Points of Lake Freight—The Saginaw Boat Loses to Bulgaria.

One of the most interesting sporting events that has taken place on the Chicago River for many years took place yesterday afternoon between the steamships Bulgaria and Saginaw. The race was for a purse of $500, and was pulled off in the presence of a large crowd of spectators, who lined the river banks and docks. The Bulgaria won by a margin of about 100 yards, and the Saginaw was left behind in the dust. The race was a very close one, and the Bulgaria had to put on all steam to win. The Saginaw was also a fast boat, and the Bulgaria had to put on all steam to win. The race was a very close one, and the Bulgaria had to put on all steam to win. The Saginaw was also a fast boat, and the Bulgaria had to put on all steam to win.

Fraud Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and besides are dangerous. PEARLINE is never peddled, but sold by all good grocers.
